

Federal

stimulants, prescription pills, medications, synthetic substances, and natural substances) in Penalty Groups 1

Group 4:  
Substances that have the lowest potential for abuse and have common medical purposes

Class B misdemeanor: Less than 28 grams; jail sentence up to 180 days and/or a fine up to \$2,000

Compounds and mixtures with small amounts of codeine

3<sup>rd</sup> degree felony: More than 28 grams but less than 200 grams; prison sentence of 2 yrs. To 10 yrs. And/or a fine up to \$10,000

Compounds and mixtures with small amounts of opium

2<sup>nd</sup> degree felony: More than 200 grams but less than 400 grams; prison sentence of 2 yrs. To 20 yrs. And/or a fine up to \$10,000

Amount more than 400 grams; prison sentence of life in prison or 5 yrs. To 99 yrs. And/or a fine up to \$50,000

place while intoxicated. This offense is punishable as a Class C misdemeanor with a fine up to \$500, 8 to 40 hours of community service, 30 to 180 days loss or denial of driver's license, and attendance at an alcohol awareness class. If the minor has a previous alcohol-related conviction, the offense is punishable with a suspension of a driver's license for one year if the minor fails to attend an alcohol awareness class. If the minor is seventeen years old or older and the violation is the third offense, the offense is punishable by a fine of \$250 up to \$2,000 and/or a jail sentence for up to 180 days and an automatic driver's license suspension

A person commits an offense if the person is an adult or minor who gives alcohol to a minor. This offense is punishable as

registration for any University courses. A suspended student must petition the Vice President for Student Services/Dean of Students for readmission. Suspension will be noted on the student's permanent record.

3. Status of Students Suspended for Disciplinary Reasons: Students under disciplinary suspension are required to disassociate themselves from the University except for appointments that have been made to conduct official university business approved in advance by the Office of the Vice President for Student Services/Dean of Students.
4. Disciplinary Probation: Conditions imposed for a definite period of time, with or without a loss of privileges. During this time, the student's behavior is monitored and critically examined. Any misconduct while on disciplinary probation may result in a more serious sanction or expulsion. Probation will be noted on the student's permanent record during the period of probation.
5. Disciplinary Warning: An official written notice of unacceptable behavior emphasizing the fact that further misconduct may result in the more serious disciplinary sanction of probation, suspension, or expulsion.
6. Disciplinary Reprimand: An official written criticism for the first violation of the Student Code of Conduct when misconduct is less serious.
7. Revocation of Admission and/or Degree: revocation of admission and/or degree may be imposed for fraud, misrepresentation, or other violations of university rules/policies in obtaining admission or a degree, or for other serious violations committed by an applicant or by a student prior to the awarding of the degree.
8. Other Sanctions: Any enforcement/sanctions needed to administer a fair standard of discipline, including but not limited to
  - a. Restitution.
  - b. Counseling referral.
  - c. Assignment of a special project.
  - d. Assignment of community service.
  - e. Restriction from membership, participation, or holding office in student organizations or other elective offices during the probationary period.
  - f. Restriction to the campus and to those activities required of all students by the University.
  - g. Restrictions from participating in university-sponsored activities, other extracurricular activities, residence hall activities, and/or athletics.
  - h. Expulsion/suspension from the residence halls or a disciplinary room change.
  - i. Revocation of the right to represent Texas Southern University in any honorary position: "Miss TSU," student delegate, etc.
  - j. Restriction from using an automobile on the campus for a designated period of time.
  - k. Restriction from voting, campaigning for another student, or attending organizational meetings during the probationary period.

retardation. In addition, research

problems. Referrals to outside resources are also given to students to address long-term substance use and detox.

Students may schedule an appointment with the

type, and length of time used|

Stimulants include Amphetamines, Cocaine, Khat, Methamphetamine

Cocaine - White, crystalline powder derived from coca leaves. The cocaine base (crack) looks like small, irregularly shaped white rocks.

Cocaine - Coca, Coke, Crack, Crank, Flake, Rock, Snow, Soda Cot

Cocaine

- Snorted
- Dissolved in water and injected
- Crack cocaine is smoked
- Cocaine users usually binge on the drug until they are exhausted or run out of cocaine

Cocaine

- Smoking or injection creates an intense euphoric "rush"
- Tolerance builds quickly, easy to overdose
- Cardiac arrhythmias
- Increased blood pressure and heart rate
- Restlessness, irritability, anxiety, paranoia
- Insomnia, loss of appetite
- Stroke or

Stimulants include Amphetamines, Cocaine, Khat, Methamphetamine

Khat - A stimulant drug made from the leaves and twigs of evergreen shrubs. Active ingredients are cathine and cathinone.

Khat - Abyssinian Tea, African Salad, Catha, Chat, Kat, Miraa, Oat, Qat, Quaadka

Khat

- Chewed
- Dried Khat is used as a tea or chewable paste
- Smoked, sprinkled on food

Khat

- Manic behavior with grandiose delusions
- Chronic use can cause depression and suicide
- Hallucinations, paranoia, nightmares
- Euphoria, increased alertness and energy, hyperactivity
- Increase in blood pressure and heart rate
- Cardiac complications
- Insomnia, gastric disorders

Stimulants include Amphetamines, Cocaine, Khat, Methamphetamine

Methamphetamine - Stimulant that speeds up the body's system and comes as a pill or powder. Available in prescription as Desoxyne® to treat obesity and ADHD. Crystal meth resembles glass fragments and is an illegally altered version of the prescription drug that is cooked with over-the-counter
